

Reports in the GPS Fleet Software

The reporting module is used for showing and downloading reporting data. Normally, 3 to 5 reports are enough to manage the fleet of an entire organization.

The screenshot shows the 'Waiting and Idle Time' report for the period 22.05.2015 00:00:00 to 22.05.2015 23:59:00. The report is displayed in a table format with the following columns: Start TS, End Timestamp, Start Address, Start Geofence, Dur. [min], Ignition, and Dig. Input 3 On [min]. The data is grouped by vehicle type and driver.

Start TS	End Timestamp	Start Address	Start Geofence	Dur. [min]	Ignition	Dig. Input 3 On [min]
CoolT Temp - Loxy - Temperatur-Sensoren - Ikw

Functions	Description
List of reports	Bericht zum Abruf auswählen
Generate reports	Klick to generate report
Filter in report list	Text filter for searching for specific reports
From - To	Time restriction for Date and time
Asset	Empty: selects all vehicles G: select a vehicle group (refer to asset configuration) Single vehicles
Restrictions	Select data inside or outside of time restrictions New restrictions can be added in the options
Minimum duration	Select minimum duration for filtering data
Driver	Filter data for drivers G: filter data for driver groups (refer to drivers)
Special filters	Addresss filter, postal code filters, minimum and maximum values
Business	Hides private data (private switch)

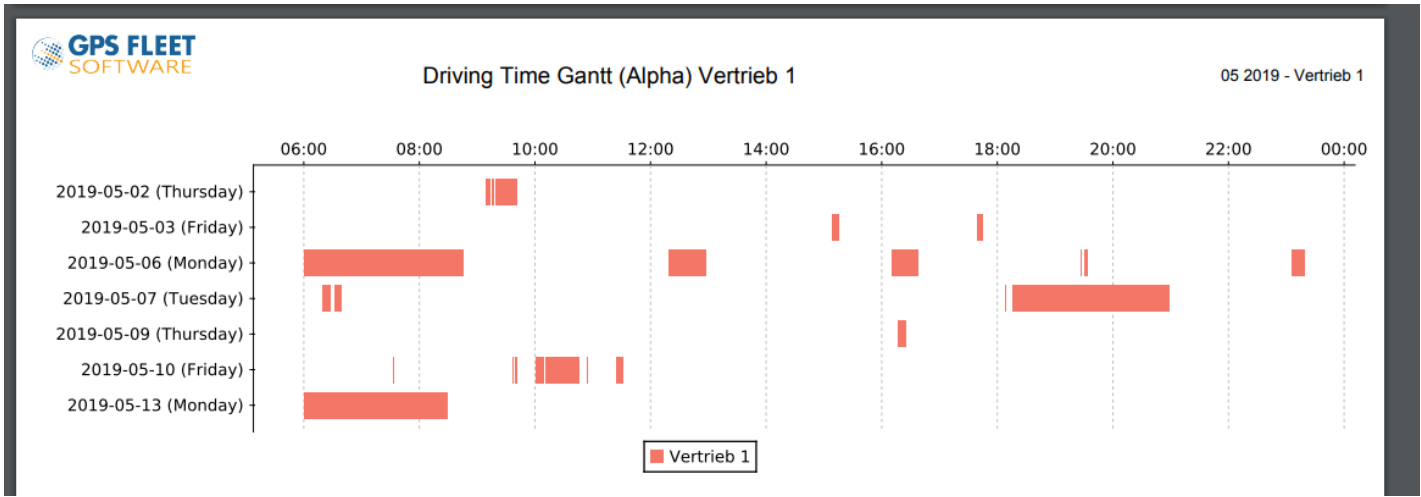

Download	PDF Export XLS Export RTF Export: load as Word CSV Export: Comma Separated Value Format,
Logo	Refer to options
Footer	Refer to options

Standard reports

The group of standard reports is shown for every customer. The total list of reports is longer and can be found in the software.
